

Start Up Chile:

The Treasure Hunt

Teams

Each treasure hunt team needs a minimum of 4 and a maximum of 6 people. If you work on the same startup, you can't be on the same team! Try to include folks from as many countries as you can — a mix of Spanish-speakers and non-Spanish speakers is good.

Evidence

There are three ways to bring back evidence from a mission: **photo**, **video**, or **physical object**. These are all equally valid ways to complete a mission. For example, if the mission says “find a completo,” you can either take a picture or a video of someone eating one, or bring back an actual completo. You don't need to buy anything for any of the missions.
